JAPANESE TACTICS PUZZLING RUSSIANS

Czar's Men Claim That There Is Trouble In Jap Army.

ROJESVENSKY'S FLEET IS FOUND

Advices from Tokio State that Japan Believes Russians Are Trying to Draw Its Fleet Off by Decoys—Togo's Fleet Whereabouts Unknown.

Gunshu Pass, Manchuria, May 27.—The Japanese tactics are puzzling. They give way at the slightest pressure against their center on both the railroad and the Mandarin road. The Chinese explain the retirement to trouble among the reserves, some of whom they say are almost in a state of revolt because the government has not kept its promise to return them to Japan.

The retirement of the Japanese center is interpreted by some of the Russian officers as a postponement of Field Marshal Oyama's offensive because of the bad state of the roads, but this view is not shared by all the officers.

In order to prevent wrangling over the question of reward or censure arising from reports forwarded by the commander-in-chief through the army corps Commander General Linevitch in order of the day, has directed that copies of the original reports of all encounters and individual explanations be transferred to his staff as well as reports through the ordinary channels.

Look With Suspicion Upon Move.

Tokio, May 26.—11 a. m.—It is believed here that the action of the Russians in sending some vessels to Shanghai is part of a diversion plan to draw off a portion of the Japanese fleet. It is thought that possibly the Russians intend to intern the slower craft but the visit and withdrawal of the faster vessels is regarded to be without purpose unless a diversion.

The whereabouts of Admiral Rojestvensky's fleet is not reported, and the opinion is divided as to whether it has entered the Pacific or returned to the lower Chinese coast.

The location of Admiral Togo's fleet continues to be secret. Popular feeling is undisturbed and the Japanese public is confident that Admiral Toga is prepared to meet any situation.

Russian Fleet Is Located.

Tsing Tau, May 27.—The whole Russian fleet is assembled near Woo Sung and the German squadron at Tsing Tau is preparing for eventualities.

Steamer Held in Port.

Che Foo, May 26.—3 p. m.—All Japanese steamers arriving at this port today, have been ordered held here pending further instructions.

Nothing from Reported Battle.

St. Petersburg, Maq 27.—Nothing further has been heard of the reported battle south of the Island of Formosa.

Russian Admiral Divides Fleet.

Shanghai, May 26.—Noon.—There are indications that Rear Admiral Rojestvensky has divided his fleet. Seventeen vessels of the Baltic fleet anchored at Saddle Islands last night. It is believed they coaled there and that from that point hey will proceed south.

British Steamers Detained in Port.

Nagasaki, May 26.—Noon.—Three British steamers which were loaded with coal at Moji (terminus of the Hankin railway, Japanese) for Hong Kong, have been detained under orders from the government.

Large Fleet of War Vessels Sighted.

Manila, May 27.—Official Advices have been received from Vigan that on May 25 over 50 war vessels were sighted off the east coast of the Batan Islands, sailing in a northeasterly direction. It is supposed that the vessels were Russian.

MAYOR WEAVER CONTROLS.

The Situation In Regard to the Fight Over the City's Gas Works.

Philadelphia, May 27.—It is the general opinion that Mayor Weaver, for the present controls the situation in his fight with the Republican leaders over the proposed lease of the city's gas works.

Thert is much speculation as to what will be the next move. Developments today are expected to come from the "organization." Insurance commissioner Durham and his lieutenants were in conference last night and their deliberations were resumed today soon after Mr. Durham reached his office. Later he repaired to the office of United States Senator Penrose and was in consultation with him for some time. There is still some talk of impeachment proceedings against the mayor and there is no longer any denial that his course has been seriously considered by the leaders and their legal advisers.

Those who advise against this step argue that any attempt to impeach Mayor Weaver at this time would only serve to strengthen his position with the public. Just now the attitude of the members of the council is giving the leaders almost as much concern as any other feature of their contest with the mayor.

BOTTLE TELLS STRANGE TALE.

Picked Up on Pacific Coast—Message Written May, 1902.

Los Angeles, Cal., May 27.—A bottle having every appearance of having been in the sea a long time was picked up at Ocean Park today and was found to contain a note purporting to be from Wilbur A. Harris, a native of Pontiac, Mich., stating that on May 8, 1902, the whaler El Toro, out of Topologampo, Mex., was wrecked off a small island south by southwest of Tahiti.

Harris further states that among the crew who drowned was Lope Auittemenez, who had in his possession a French manuscript handed down in his family giving the complete history of the lost Dauphin, of France, written by a man in whose charge Robespiere left him and a French ornament set in diamonds.

Harris asks that a professor of history of Yale university be notified and gives directions for finding this historical treasure which he has buried.

OPPOSED TO CHURCH UNION.

Dr. Strickler Declares Presbyterians Should Not Unite.

Fort Worth, Tex., May 27.—Debate on the proposed federation with other Presbyterian churches occupied the time of the morning session of the Southern Presbyterian general assembly.

Dr. G. B. Strickler, of Richmond, Va., who earnestly opposed the proposed plan, said that there were better reasons than those of prejudice why the Southern church should remain a separate body. He was afraid that all would be unfaithful in the churches testimony if federation was effected without first arriving at a conclusion on unity of doctrine which he thought would be a difficult matter to reach.

Other speakers opposed the federation plan. No time has been set to close the debate which probably will take up the entire day's session.

Hero of Merrimac Weds.

Tuxedo Park, N. Y., May 27.—Captain Richmond Pearson Hobson, U. S. N., retired, and Miss Grizelda Houston Hull, of Tuxedo Park, were married here at the cottage of Mr. and Mrs. George Hull, the bride's parents, the Rev. William Fitzsimmons, rector of St. Marys, officiating.

Tillman Narrowly Escapes Death.

Columbia, S. C., May 27—Senator B. R. Tillman was thrown from his carriage at Edgefield last night and narrowly escaped serious injury. He had spoken to the graduating class of the South Carolina Co-Educational institute, Miss Lona Tillman, his daughter, also received slight bruises.

STRIKE INVOLVES THE BUSINESS INTERESTS

Situation In Chicago Is Indeed A Very Grave One.

RIOTS IN THE LUMBER DISTRICT

Troops Have Not Been Called for, But It Seems that This Course Will Have To Be Taken—Strikers' Benefits Are Increased.

Chicago, May 27.—The teamsters strike is running along like floodtide no barrier appearing in any way to keep it indefinite bounds ad while it has been spreading it has shifted temporarily from the strife between employers and labor unions to differences between the business interests involved, and the local administrative authorities.

In the face of declarations by the employers that the police department of the city is absolutely inadequate to afford protection to property as a result of the conditions brought about by the strike's spread to the lumber district, Mayor Dunne announces that there will be no necessity to call for troops this week.

The lumbermen, the latest interests to be affected by the strike are not so optimistic. They seem to be living in terror of riotous uprising in that vast area embraced by their yards and plants—a district peculiarly inviting to incediarism.

In anticipation of trouble to the lumber district, the mayor instructed Chief of Police O'Neill to close all the saloons there between the hours of 1 and 7 p. m., the cases where crowds were permitted to gather inside or outside the premises.

In preparations for a protracted strike siege the teamsters' joint committee has arranged to send committees to all parts of the country for the purpose of gathering funds. It is the ambition of the strike leaders to raise $1,000,000 by July 1. Solicitors probably will start from Chicago next week on their mission. They will visit every local union in the United States according to the plan, and it will, in urging financial assistance strive to arouse organized labor everywhere to sympathy with the present struggle.

One of the first moves of the strike leaders to keep the men in line will be to increase the weekly strike benefits. The drivers on strike now receive $10 a week. The express drivers' union has arranged according to the officials to pay its members $12 weekly beginning next Monday. If sufficient funds can be raised the benefits paid to other strikers will be increased in proportion.

Strike riots began today in the immediate neighborhood of the lumber district. At Thirty-fifth and Morgan streets, 20 lumber and shaving wagons 14 of which belonged to the Ritten house and Embree & Co., and guarded by upwards of forty police, were attacked by a crowd of more than 400 strike sympathizers with bricks, stones and sling shots. While the police confined themselves to clubs the fighting waged indecisively.

Finally the police drew revolvers and charged the crowd. The sight of the firearms quickly quieted things the mob fleeing wholesale. No arrests were made. At Thirty-fourth street near by, police on guard were later forced indoors. Many of the strike sympathizers armed themselves with small air rifles and from behind lumber piles and buildings fired intermittently at the police, a number of whom were struck without being able to see the assailants and were finally forced to take refuge in offices and other nearby buildings.

The building industry of Chicago faced a fresh complication today in sympathetic strikes among carpenters and other workmen. At a dozen buildings the contractors encountered the alternative of sending back the lumber delivered by nonunion teamsters or having strikes to deal with.

In a number of instances the lumber was accepted by the contractors where whereupon the carpenters and other workmen promptly laid down their tools and quit. While the carpenters district council has refused to authorize a strike, the members of the union declare there is a tacit understanding that they are not required to work under police protection or with lumber delivered with police protection. The first lumber mill to shut down because of the shortage in supplies was that of the J. W. Landis Mill company. The first were drawn today and the workmen laid off.

JEWS AND CHRISTIANS ARMING.

Tension Is Increasing and There May Be Serious Trouble.

St. Petersburg, May 27.—The council of the empire ha sincreased the appropriation for public education by $625,000.

Private reports from Zhitomir, province of Volynia, say the tension between the Jews and the Christians is increasing and that both sides are arming.

The Ignatieff commission for the revision of exceptional laws designed for safe-guarding public arder, has pronounced against a continuance of the minor state of siege which is annually declared in many Russian cities.

The commission finds that it led to the great abuses and arbitrariness, and furnished a pretext for domiciliary visits and summary trials. The commission recommends the entire abolition of the so-called minor state of siege and the substitutional of public stress of martial law so as to leave the cities either in a normal condition with the civil authority in full sway or entirely under the control of the military.

Destroying Disorderly Houses.

Warsaw, May 27.—The demolition of disorderly houses by the Jewish socialist organization called the Bund continues today unchecked through out the city. The Jews and Christians joined forces this morning and are working together to make a clean sweep. They are not only attacking disorderly houses but private apartments where women have been living under the protection of aristocratic personages. Occupants of the premises attacked fled and are hiding. The authorities remain indifferent. The Cossacks and gendarmes look on as amused spectators and the police are not to be seen.

BARON ROTHSCHILD DEAD.

Famous Financier Dies at His Residence in Paris.

Paris, May 27.—Baron Alphonse de Rothschild, head of the French branch of the banking house bearing the name of Rothschild, and governor of the bank of France, died at 4:30 this morning from acute bronchitis aggravated by gout. The eminent financier had been sinking slowly for many days but there was no apprehension that his death was imminent. He first took to his bed two weeks ago. Several rallies gave promise of his recovery.

Two days ago the baron began to fail rapidly, and his condition assumed a disquieting form. Although he kept up an animated conversation with the members of his family, and told servants to do things, the patient became very weak and last night entered upon a comatose state and passed away this morning peacefully, surrounded by his family.

The announcement of the baron's death caused widespread regret, for besides his position in the financial world, Baron Alphonse was known for his lavish charities, one of the latest being the gift of $2,000,000 for the erection of workingmen's homes.

Minister Indicted for Slander.

Urbana, O., May 27.—Rev. Warren Wiant, pastor of the Methodist church at Christiansburg, near Urbana, has been held to a grand jury on a charge of slander. The affidavit was filed by Dr. Hyde of Christiansburg, who alleged that Wiant had said, "All women who dance are unchaste." The preacher denied having made the remark complained of, but the state brought several witnesses who supported Hyde's statements.

FATAL RESULTS FROM REAR-END COLLISION

Terrible Disaster Occurs Near City of Baltimore.

ONE DEAD 50 REPORTED HURT

Brakes Refused to Work and Motorman Was Unable to Stop His Car. Stampede of Passengers Cause a Number To Be Injured.

Baltimore, May 27.—William Stemler was almost instantly killed and half a hundred men and women were injured, several of them seriously, in a collision between two trolley cars returning to the city from West Port, a suburb of this city, early today.

In the neighborhood of the terminus of the West Port line are several resorts and the cars, which were the last that were to come to the city were filled with belated pleasure seekers.

The last car but one reached a point where the tracks across those of the western Maryland railroad's new tide water extension. The conductor had gone ahead, as is customary, to make sure that no railroad train was approaching. Before he could signal the motorman that the crossing was clear, the last car appeared at the top of a steep grade, at the bottom of which the Western Maryland tracks cross the railroad. The rear car was running at full speed. The motorman, Sebastian Helldorfer, attempted to stop it, but the brakes refused to hold and the car rushed down the incline with constantly increasing speed.

There was a crash and both it and the one that folowed were badly wrecked.

The lights were extinguished and those who remained in the cars fought each other in their efforts to escape and in doing so trampled those who had been thrown to the ground by the collision. The fire bells of Westport summoned the citizens of the town and they set to work to aid the injured and telephoned to this city for ambulances and further aid, which was promptly sent. When the light was obtained Stemler was found horribly mangled, on the rear platform of the forward car, upon which he had been riding. His arm had been torn from his body. He was still alive, but died a few minutes after being taken from the wreck.

Helldorfer, the motorman, was found unconscious, on the front platform of his car. He was taken to a hospital, and is not expected to live.

Private carriages belonging to residents of the neighborhood were used to bring the injured to the city, and as soon as possible after the accident the railroad company sent special cars to assist in this work.

Committed Suicide with Mercury.

Charlotte, N. C., May 27.—L. D. Whittemore, of Stamford, Conn., committed suicide at Lenoir, this state, today. The suicide first drank mercury that he had scraped from the mirror of the dresser, cut an artery in his wrist and then tied a chamois skin around his neck and used a hairbrush in twisting it in order to choke the breath from himself. Whittemore traveled for a safe manufacturing concern in Stamford. He leaves a wife and three children. His body will be sent to Connecticut for burial.

Verdict of Not Guilty.

Elberton, Ga., May 27.—The jury in the Hall case returned a verdict of not guilty this afternoon, in a few minutes after retiring. Hall has been on trial for killing Barnard Smith, the matter attracting much atention. The skull of the dead man was exhumed and examined in court.

Pythians Going to New Orleans.

Indianapolis, Ind., May 27.—The supreme assembly, uniform rank, Knights of Pythias, now in the sixth biennial convention here, decided this evening to hold the next national encampment of the uniform rank in New Orleans. This will be in September, 1906.

AN EPITOME OF THE SENATE AND HOUSE

The Governor Has a Raise in Salary to $5,000 a Year.

INVESTIGATE STATE PRINTER

Buckman Bill Takes Much Time—A Hard Battle—House Wants Night Sessions—A State Tax for Pensions. Kindergarten Measure Killed.

Tallahassee, May 27.—The Senate met yesterday morning, and after an earnest prayer by the chaplain, transacted considerable business.

The fish bill making it unlawful to catch mullet between November 15th and December 31st was passed.

A resolution was adopted calling for an investigation of the State printer. The printer and others against whom charges were preferred court a thorough investigation.

Senator Bailey introduced a bill to provide for special terms of circuit courts in certain cases. General Bailey secured a suspension of the rules and the bill was passed. The object of the bill is to authorize county commissioners to call a special term of circuit court for speedy trial of capital crimes when such immediate trial is deemed necessary. Gen. Bailey believes that the operation of the provisions of this law will entirely do away with lynching. The vote was 12 to 10.

Senator Bailey called up the bill of Senator Scott increasing the salary of the Governor from $3,500 to $5,000 per annum, which was passed, 28 to 5.

Senator Crane called up his bill to create a State school text-book commission this morning. It was read in full on its third reading and passed by a vote of 13 to 12. This bill provides that the State board of education shall constitute the book commission; that the Governor shall appoint a sub-commission of five selected from State educators, who shall recommend textbooks from which the book commission shall make selections. It also named the State school curriculum.

At the afternoon session a motion was made to take up the bill, and Senator McCreary announced that he would move a reconsideration of the bill.

The Buckman bill occupied most of the afternoon. After the amendments had been talked down, Senator McCreary's amendment to exclude the East Florida Seminary from the bill being also defeated, the vote on the Buckman bill stood 16 yeas, 5 nays.

In the House.

Tallahassee, May 27.—When the House met yesterday morning Mr. Wells offered a resolution fixing the hours for the daily sessions of the House—10 a. m. to 1 p. m.; 3 p. m. to 6 p. m.; 8 p. m. until the House desires to adjourn. The resolution was adopted.

Senator Zim's bill to extend the time for completing the East Coast Canal for two years was amended to twenty-two months, and was passed.

Speaker Gilchrist asked to refute the idea that he had appointed a whitewashing committee on the insane asylum investigation.

The empowering the State to engage in life insurance business, to prescribe the duties of the commissioners of State institutions, was passed.

Captain Johnston's bill to prohibit the manufacture and sale of cigarettes, cigarette paper or wrappers, or substitute therefor, and providing a penalty for the violation thereof, was read the third time and passed.

Mr. Sistrunk's bill to fix the liability of railroad companies and other common carriers in the transportation of freight, was passed 42 to 0.

Mr. Wells' bill to fix the pay of members, officers and attaches of the Legislature of 1905, was read the third time and passed.

Mr. Leggett's bill to require the prompt payment by common carriers doing business in the State of claims, loss or damage of goods, wares or merchandise, was passed, 40 to 0.

Senator Carter's bill to provide for the levy of a pension tax of 4 mills on the dollar for each of the years 1905 and 1906, was read the third time and passed 44 to 0.

The bill by Mr. Kilgore of Sumter, to enlarge the powers of the Railroad Commission and authorizing the commission to employ civil engineers to see that the railroad tracks, etc., are kept in repair, was read the second time and being unopposed, passed the third reading.

Senator Blount's bill to define the effect of the record of deeds and mortgages, caused discussion that brought on adjournment.

WHAT IS THERE IN IT?

Scott's Emulsion is a careful blend of the purest cod liver oil, hypophosphites of lime and soda, glycerine and a dash of flavoring. The combination of these valuable ingredients emulsified as in Scott's Emulsion represents the greatest remedy yet discovered for weak lungs, poor blood, low vitality, child weakness and all wasting diseases.

MR. MATHESON IN PALATKA.

Palatka News Says He Was Greeted by Fine Audience Wednesday.

The Palatka News of Friday, the 26th inst., has the following to say of Col. Christopher Matheson and the temperance address which he delivered in that city Wednesday evening:

"Though it has not yet been officially called, the wet and dry campaign which is on the tapis in Putnam county, may be said to have opened on Wednesday night at the Methodist church in Palatka.

"The speaker of the evening was Mr. Christopher Matheson of Gainesville. The attendance was quite large, though it was noticeable that the audience was composed largely of ladies.

"This does not seem strange, for the coming campaign will be largely a woman's campaign. They will do a large part of the work. The women are opposed to the sale of liquor in any form. They suffer indirectly from the effects of its sale and the indirect effects are greater than the direct.

"Rev. L. B. Lynn presided at the meeting. There were several songs by the choir. Then Mr. Lynn introduced the speaker of the evening.

"Mr. Matheson is a slender, smooth-faced young man with an intellectual appearance. He might be taken for a Campbellite preacher or a country school teacher, but he is neither. He is a Presbyterian and a lawyer, held in poise by conflicting penchants for politics and theology. His manner of address is that of an evangelist. He is a pleasing speaker.

"His address was largely devoted to the experience of Alachua county under dry rule, and he read the testimony of promiment men in Gainesville to the value of prohibition. He refuted the statement that a 'dry county would kill the town' by quotation from The Gainesville Sun showing how that city was growing. He contrasted the evils of the licensed saloon with those of the 'blind tiger' and found for the tiger. His statement that 'he would rather have two blind tigers than one gilded, attractive, licensed saloon' so roused the enthusiasm of one good brother in the audience that he cried 'Amen!'

"The audience was generally pleased with Mr. Matheson's speech and at its conclusion many went forward to congratulate him."

Growing Aches and Pains.

Mrs. Josie Sumner, Bremond, Tex., writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c and $1.00. Sold by W. M. Johnson.

Had a Pleasant Time.

Mrs. H. L. Goodnow, nee Miss Jennie Andrewe, recently married, and who departed at once for her future home in New Hampshire, writes to her parents, Col. and Mrs. J. O. Andrews, that the trip by land and sea was delightful, and that she had at last landed safely in Westmoreland, where her husband is a progressive citizen, and where she is so far well pleased. Friends of Mrs. Goodnow hope to see her here again next winter.

THE CANTALOUPE CROP.

Yield Will be Good and Movement Will Soon be Heavy.

From all present indications the cantaloupe crop will be the largest in the Gainesville section than for several years. The acreage is larger than usual and the crop, which will be prolific, will be the choicest known here for a long time.

The first carload of cantaloupes to leave the State this season was shipped by Cave & Co., Fort Drane, on the Gainesville and Gulf. It was followed the next day by a solid carload containing 425 crates from Martin, Marion county. The fruit is maturing and ripening gradually and within a few days this delicious melon will be plentiful in the local market.

Indications are that the watermelon yield will also be large this season, which means that all the darkies and lots of white folks may feast on melon to their hearts' content at a reasonable outlay. Watermelons will be moving within ten days.

Why Suffer From Rheumatism?

Why suffer with rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferers from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists.

Anti Race Suicide Tenement.

New York, May 27.—If plans now being discussed are carried out the largest and best equipped tenement house in the world will son be built in Brooklyn. It will cover an entire city block and will stand twenty stories high. A special feature of the construction will be provision for large families. In fact, it may be that in contrast with so many tenements which are barred to families having children none will be allowed in the proposed tenement except where there are offsprings. Mrs. Oliver H. P. Belmont is the sponsor for the plan.

Two Men Smothered to Death.

Minneapolis, May 27.—Frank Green, of New Brighton, and William Fox, were smothered to death in a fire at the Flour City hotel. Many other lodgers at the hotel narrowly escaped a like fate, several being rescued in an unconscious condition by firemen. Frank Barn, a negro, was imprisoned by smoke and flames in a room on the third floor. He appeared at the window calling for aid and firemen ran a ladder to the room, two members of the department carrying him to the ground.

A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.—D. R. Byrnes, merchant, Doversville, Texas. 25c, 50c and $1. Sold by W. M. Johnson.

Fleecy Staple Climbing Up.

Americus, Ga., May 27.—Grass in the cotton patch and speculators combined put cotton on a boom Wednesday, and the price of July futures ran up to 8 cents and over. The spurt had no effect on spot cotton, of which some 2,000 or 3,000 bales are yet in the Americus warehouses.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

MALARIA A Poison Breathed into the System

The air arising from low, marshy places, damp cellars, stagnant ponds and pools and from decaying vegetable matter, as well as the gases from sewers, is loaded with germs of malarial poison. The water we drink that has not been properly filtered and purified, is also full of these germs and microbes, and as we daily breathe and drink millions of these into the system, to be absorbed by the blood, the entire body begins to feel the effects of the poison. The most common form of Malaria is "chills and fever," but when the blood is thoroughly saturated with the poison it becomes so weak and polluted that abscesses, carbuncles, boils, sores, ulcers and other skin diseases result. Malaria also affects the liver, kidneys, bowels and stomach, producing a chronic state of biliousness that often results in jaundice or some malignant fever. In cases of Malaria the blood must be purified before the body can regain its natural health. S. S. S. contains purifying and tonic properties possessed by no other blood medicine, and is the ideal remedy for the treatment of Malaria. It destroys the germs of the disease and builds up the weakened, polluted circulation. It enters into the blood and forces out every particle of poison and waste matter and adds strength and activity to it. S. S. S. improves the appetite and digestion, tones up the entire system by its alterative and purifying action, and Malaria, with all its bad effects is permanently driven from the system. Book on the blood and any medical advice, without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

MALARIA IN HIS SYSTEM FOR YEARS.

For several years I suffered with Chills and Fever, caused by Malaria in my system, and each summer for several years I would have a relapse. Finally my physician prescribed S. S. S. which entirely cured me; I have never been troubled since. 913 W. Market St., Louisville, Ky. I. SHAPIRO.

NEWS OF CITY AND COUNTY CONDENSED

Miss Jessie Evans has gone to Orlando, where she will visit friends for a few days. Miss Evans resided in Orlando in her early childhood, and has many friends there who will be delighted to greet her again.

Remember the Gainesville & Gulf has round trip rates to White Springs on Sundays at only $1. Train leaves Gainesville at 6:30 a. m., returning at 9:30 p. m., and affording a whole day at this favorite resort. Cheaper than hiring a buggy, and passengers are enabled to spend a day on the banks of the famous old Suwanee river. tf.

A cable from Col. H. F. Dutton, Liverpool, Eng., bears the information that he arrived safely, after a "slow, safe and pleasant trip." Col. Dutton expects to remain in Europe only a short time, and will return to Gainesville within the next thirty days. It was only to look after his immense European phosphate interests that he made the trip.

Spend a while at White Springs, the leading health resort of the State. On the far-famed Suwannee river. The Gainesville and Gulf offers the following low round-trip rates from Gainesville: Sunday only, $1; ticket good going Saturday and returning Monday, $2 50; ticket good for fifteen days, $3. Double daily service. For further particulars inquire of ticket agent. tf

Attention is directed to the advertisement of the Ocean View Hotel, St. Augustine, owned and operated by W. S. M. Pinkham. The building contains large, cool, furnished rooms, with free bath. Also light housekeeping privileges, at a rate of from $1 to $3 per room each week. This will be a fine opportunity for those who desire to spend the summer on the coast at a reasonable rate.

Account of Confederate Veterans' reunion the Seaboard Air Line Railway will sell round-trip tickets to Louisville, Ky., at the rate of $17.80, from June 10th to 13th inclusive, final limit to leave Louisville June 19th, 1905. Limit may be extended to leave Louisville as late as July 10 by depositing ticket with J. H. Richardson, special agent, Louisville, and paying 50 cents per ticket at time of deposit.

Dr. R. B. Ayer has installed in his drug store a fine Victor talking machine, which he purchased from Moses Edelstein, the agent here. The Doctor gave a concert for the benefit of the city editor yesterday, and it was as natural as if he had been seated in the presence of a fine orchestra. Dr. Ayer will no doubt attract customers to his store as a sugar bowl attracts flies "in the good old summer time."

Hon. W. G. Robinson has returned from Tallahassee, where he has been in behalf of this section in an endeavor to defeat the Buckman educational bill, which is destined to affect this section so seriously. Col. Robinson and others exercised every influence for the defeat of the bill, and they were ably represented by Senator McCreary and Representatives Rosborough and Tillman, but it was seen that the influence was too great and all they could do was to "watch and wait." Mr. Robinson paid Senator McCreary especially a fine compliment, stating that he had worked hard and faithfully in the interests of his constituents and the success of the bill was in no wise due to his tardiness or lack of earnestness in the proceedings.

A Handsome Curtain.

D. A. Benson, foreman of painters for the firm of Sternberger & Phillips, is now preparing for the opera house one of the handsomest drop curtains ever seen in this section. The centerpiece is a Grecian water scene, a river being spanned by a Colonial bridge. Around this scene are innumerable advertisements of local firms, artistically arranged, and which will make a beautiful effect. As a scenic artist Mr. Benson is one of the best that ever stroked a brush in Florida.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

U. D. C. INVITED.

Kirby Smith and J. J. Finley Chapters Will be With Veterans.

Lew Wallace Post, G. A. R., have not neglected the dear ladies who constitute the membership of the Daughters of the Confederacy, in the coming memorial exercises on the 30th inst., but have extended to both the Kirby Smith and the Jesse J. Finley chapters a cordial invitation to be present and assist them on this important occasion.

The chapters will be present, and have appointed committees to solicit floral decorations for the occasion, which they hope to make one of the most commemorate and impressive in recent years.

The ladies of the Confederacy are invited to be present on the north side of the court house, square at 10:30 o'clock Tuesday morning, when carriages will be waiting them for transportation to the cemetery.

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by all druggists.

LIBRARY DONATIONS.

Several Valuable Volumes Have Been Recently Donated.

The Twentieth Century Library continues to grow in popularity and numbers of its volumes, which is evidence that the people of Gainesville appreciate the venture.

The latest donations to the library are twelve handsome volumes by Mrs. Chapman and a set of eight volumes on ornithology by her son, Mr. Chapman, who is a recognized authority on this subject. Mr. Chapman is now attending the congress of ornithology in London.

The ladies of the Twentieth Century Library desire to assure the public of the highest appreciation for the gift of any literary works which they see fit to donate to the library.

A World Wide Reputation.

White Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or sourness of the stomach, improves their digestion, and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

Anti-Cigarette League.

The Anti-Cigarette League, an aggregation of youths who organized here a few weeks ago, held an interesting meeting at their rooms a day or two recently.

It was an interesting meeting and a hot meeting as well, since these young descendants have learned something of politics and the condition of affairs had assumed an exciting air and an exciting period, as there seemed to have been some kind of friction working between the "gears."

However, the meeting was held and the officers were elected as follows:

Superintendent, Joseph Shands; President, Rufus Albright; Vice-President, Byers Douglass; Secretary, Douglass Perry; Treasurer, Perry Mosty; Janitor, Richard Pound.

The League has decided to elect officers every six weeks after this date in order that all may have a "show."

A Creeping Death.

Blood poison creeps up towards the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at all drug stores.

NEWS FROM THE RACERS.

Word is Received From Them by Marconi Wireless Telegraph.

New York, May 27.—The German racing yacht Hamburg led the Endymion and Ailso by 136 miles in the transatlantic race for Emperor William's cup on May 22.

All three of the yachts were sighted by the steamer St. Louis on that day. The Ailsa was leading the Endymion by about 2 miles. A light southeast breeze prevailed. The Hamburg had light variable winds. This information was sent to the Associated Press by Marconi wireless telegraph from the St. Louis by a round about route which resulted in considerable delay in its transmission. From the St. Louis it was given to the steamer Campania by the Campania to the Marconi station at Seconset and thence to New York.

On the following day May 23 the Ailsa and the Hamburg were sighted by the steamer Minnehaha. Both the yachts had moderate southerly winds and a smooth sea. The Ailsa was 1,061 miles due east of Sandy Hood lightship. The Hamburg when sighted by the Minnehaha she was 1,187 miles due east of the lightship. At the time she was sighted was not given in the dispatch received from the Minnehaha by Marconi wireless, however, the relative position of the yachts cannot be determined.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at all drug stores; price 50c.

Gainesville is still on the map, and is one of the best towns in Florida.

Baron Alphonse de Rothschild, head of the Paris branch of the great banking house, is dead.

The Presbyterians have decided to give up the idea of establishing a university at Atlanta, Ga.

If the East Florida Seminary must pass out, it will leave a record of which its friends may be proud.

Where there is so much smoke it is quite certain you will, by diligent search, find a few burning embers.

Thank fortune, the much osculated Captain Richard P. Hobson is married at last. He has kept the matrimonial market in an uproar long enough, and now the coast is clear for some one else.

The Legislature can destroy the best schools in Florida, but when it comes to stating facts about the conduct and conditions of schools by a committee from that body, the shoe is on the other foot.

The Punta Gorda Herald would convey the idea that The Sun favors Sunday baseball. The Sun and the people of Gainesville don't desire to have baseball, chicken or bull fights on Sunday. The people of Gainesville have six white churches to attend on Sunday; and there is no city in the State that patronizes its churches more liberally than Gainesville.

Decoration Day, Tuesday, May 30, will be observed by the G. A. R. Post of this city, the Confederate Veterans and both Chapters of the U. D. C. The hands of brothers are now clasped across the chasm and the old boys of the blue and gray are now as strongly united as ever. May they live in peace the remaining days they have among us, united in love of the one glorious country.

A job printing office in Ocala, says The Star, is printing 500 copies of a letter for a colored Baptist preacher, which the said preacher says was written by Christ to his people and placed under a rock near Daytona. This is the fourth communication that has reached this divine from the same source via the same postal route, during the past few years, and each letter calls for 500 copies, to be printed and sold to the members of his religious persuasion.

According to the very best information obtainable, we pass this way but once, and when we step into the valley of the shadow, all our earthly belongings will be left behind. Not a cow, nor a sheep, nor an acre of land, not a dollar of money, will go into the grave with us. Why then should men race through life in a mad flight for gold, brushing all the better things aside, when at last it must be unloaded at the tomb? Would it not be better to smile a little and do a few good deeds as we went along? Would it not be a better plan to put a flower into the hand of some sad-hearted human being struggling along the road of life, than to clinch an almighty dollar until cold death forced us to relinquish it?

GOVERNOR'S MANSION.

The building of a mansion for the Governor of the State of Florida is of interest to every voter, and we publish the substitute, which was passed by both houses and will become a law when signed by the Governor. It is as follows:

Section 1. The Governor of the State, the comptroller and three suitable persons, citizens of this State, shall constitute a commission, of which commission the Governor shall be chairman and the comptroller the secretary. The Governor shall select and appoint the three citizens to be members of the commission provided for herein, and they shall be chosen from different counties of the State, and he may fill any vacancies that may occur during the continuance thereof. The terms of the office of such commissioners shall expire with the completion of the purposes provided for by this act, and the three commissioners to be so appointed shall be paid only their actual expenses while serving as such.

Sec. 2. It shall be the duty of the commission, as soon as practicable after their appointment, to select and acquire a lot or tract of land within the corporate limits of the city of Tallahassee or its vicinity, as a suitable site for the erection of a building or buildings thereon to be known as the Governor's mansion, and to select and approve plans and specifications for the construction of such building or buildings, and for the complete furnishing of the same; and shall contract for the building of such mansion and necessary outhouses and fences, including the painting of same and complete furnishing thereof, and for the proper laying out and adornment of the grounds surrounding the same; and to advertise for plans and specifications to see that such plans and specifications are properly executed.

Sec. 3. Nothing in this act shall prevent the acquisition or use of the park or square in the city of Tallahassee known as "Jackson Park" or "Jackson Square," for such site, and such commission are authorized to ascertain if such park or square is the property of the State or may be lawfully appropriated to the purposes of this act, and shall acquire the same for such purposes by indefeasible title in fee simple in the State of Florida; then such commission shall file in the office of the secretary of State a written declaration of their having selected and the States' having acquired such park or square for such site; Provided, always, that such commission shall exercise their judgment whether to select such park or square for such purpose or acquire some other site and erect buildings thereon and improve the same as provided in this act.

Sec. 4. The commission shall let all contracts to the lowest responsible bidder or bidders, and shall require from the contractor or contractors undertaking the work or any portion thereof, as a guarantee that the same will be properly done, and that said building or buildings and improvements shall be properly and completely erected within one year after the said contract is let, a bond with good and sufficient surety, and conditioned as above indicated, and such commission is hereby authorized and empowered to do every other matter and thing necessary to the carrying out of the purposes of this act.

Sec. 5. That the sum of twenty-five thousand dollars, or so much thereof as may be necessary, be and the same is hereby appropriated out of the moneys in the treasury not otherwise appropriated, for the purposes provided for by this act; and no payment shall be made except by warrant drawn by the comptroller on the treasurer and upon itemized accounts approved by the commission, or a majority of them, and duly audited by the comptroller, and no more than the sum hereby appropriated shall be used for the purposes of this act; Provided, however, and it is distinctly understood that in case said Jackson or other park or square in the city of Tallahassee shall not be selected and acquired for the purposes of this act, then no money appropriated by this act shall be used for any purpose of this act until a site for such mansion suitable to said commission shall have been donated and conveyed by proper deed in fee simple, free from all incumbrance to the State of Florida, without expense to said State, to be used for the purposes of this act.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

BUCKMAN BILL PASSED.

The Buckman bill, which is considered by many to be an injury to the schools of Florida for several years to come, has been made a law. It does away with all the colleges receiving State aid, except the State university and a female college to be located later.

Senator McCreary made a noble fight against great odds to save East Florida Seminary, but the forces against him and education were too strong.

The vote on the amendment to leave the Seminary out of the bill stood 10 in favor to 15 against. The vote on the Buckman bill was 16 for, to 5 against the bill, many of the minority having left the hall before the vote was taken.

We submit without comment at present.

A railroad man contributes this regarding the Book of books: If you have the blues, read the 27th Psalm. If your pocket-book is empty, read the 37th Psalm. If people seem unkind, read the 15th chapter of John. If you are discouraged about your work, read the 126th Psalm. If you are all out of sorts, read the 12th chapter of Hebrews. If you are losing confidence in men, read the 13th chapter of First Corinthians. If you can't have your own way in everything, keep silent and read the 3d chapter of James.

The Legislature should appoint a standing committee on vindication.

DR. KELLEY PRAISES SENATOR M'CREARY

Declares He Made Fight of His Life Against Buckman Bill.

STAYED TO THE VERY LAST

When Others Who Had Voted Bill Down Were Disgusted and Left Their Seats The Senator From Alachua Was Still Loyal in Standing by Seminary.

Dr. J. L. Kelley, county superintendent of public instruction, returned Saturday from Tallahassee, where he went as a member of the delgation from this city in defense of East Florida Seminary, in the great Buckman bill fight which has just come to a close. There were ten members of the committee and a great many interested citizens, prominent in business, professional and social circles, who were there to assist in every way possible the Senator and Representatives from Alachua county, but it seemed of no avail, as the bill passed the Senate by a handsome majority.

While the majority showed quite large, it may be said to the credit of those favoring a substitute that many left the Senate chamber before the final vote on the third reading was taken.

In speaking of the matter Dr. Kelley said:

"Any man who thought it possible to defeat this bill simply does not understand the situation. It seemed to be a popular sentiment with a large majority of the Senators, I might say due to imaginary extravagance of the present educational system. I believe, too, that the opposition to the present system was strengthened by recent reports of committees which have been sent out to investigate public institutions, and the good naturally had to forego the suffering along with the bad.

"I want to congratulate Senator McCreary for the noble stand he has taken in this matter," continued Dr. Kelley. "Senator McCreary has been faithful to the last, standing by the interests of East Florida Seminary and his friends here, and I want to tell you now if it had not been for his earnest efforts and influence and hard work the majority would have been a great deal more than it was. Senator McCreary has fought a noble battle, and he deserves credit. He was always on hand to defend the interests of the Seminary, which he did in a manner entirely creditable, and I can assure the people that no man on earth could have prevented the passage of that bill by argument. We all admired the Senator from Alachua for his earnest efforts in our behalf, and, while it is by no means his fault, he feels worse today than we—because he feels that it is the fight of his life cut down as the straw under the scythe--but our people may feel assured that he did all it was possible for any man to do.

"Mrs. McCreary also made a noble fight for the Seminary and its interests as far as she could, and I am frank to admit that the ladies played a great part in this work. There were many of them. All I can say in conclusion was that reason did not prevail, but prejudice and passion was the order of the occasion."

Dr. Kelley stated that among the enthusiastic and untiring workers against the bill was Hon. E. S. Crill of Palatka, who stood with Senator McCreary and his friends to the last.

Another gratifying feature was the fact that, during all the argument, while many bitter remarks and criticisms were made regarding some State schools, nothing was said unfavorable to East Florida Seminary.

MOZLEY'S

LEMON ELIXIR

REGULATES THE LIVER, STOMACH, BOWELS, KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

MOZLEY'S LEMON ELIXIR.

AT THE CHURCHES TODAY.

Interesting Services at Baptist—Rev. Hart at Presbyterian Church.

Services will be observed at the First Baptist Church, Rev. S. S. Rogers, today as follows:

Sabbath school at 9:30 a. m.; preaching at 10:30 a. m. Subject, "The Best We Have." Meeting of Sunbeams at 3 o'clock and B. Y. P. U., Jr., at 4 p. m. Preaching at 7:45 in the evening. Subject, "The Second Coming of Christ."

Owing to the absence of the pastor, Rev. Thomas P. Hay, who has not returned from the Southern Presbytery at Fort Worth, Tex., Rev. H. M. Hart has kindly consented to fill the pulpit this morning at 10:30 and this evening at 7:45 o'clock. He is a fine speaker and all who hear him appreciate his sermons. There will be Sabbath school at this church at 4 o'clock and meeting of the Westminster League at 7 p. m.

The usual services will be held at Kavanaugh Methodist, Holy Trinity Episcopal, Christian Adventist and St. Patrick's Catholic churches.

All seats are free and a cordial invitation is extended to all places of worship.

The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up the organs as nothing else will. Oscar Bowman, Lebannon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." Sold by J. W. McCollum & Co.

A DESERVED COMPLIMENT.

Savannah News of Recent Date Comments on Mrs. Strobhar's Report.

The Savannah News of the 21st inst. took occasion to pay Mrs. J. N. Strobhar, president of Kirby Smith Chapter, United Daughters of the Confederacy, a fine but deserved compliment on her excellent report to the State Convention at Pensacola on a recent date. Among other nice things, The News said:

"The cold type can give no idea of the gifted lady's elocutionary accomplishments. There is one point in the report that is very pleasing, and as it was repeated at the State Capitol when the Confederate flags reception was held by the Legislature, it marks a hopeful era in our reunited country's history. The U. D. C. placed 'Old Glory' above the 'Stars and Bars' on the Confederate monument on Memorial Day, as evidence that our country's flag now protects the flag of the 'Lost Cause.' At Tallahassee, when the Confederate flags came in, they were flanked on either side by 'Old Glory' as an escort of honor."

Juggling With Dynamite

Is no more dangerous than to neglect kidney disorders. Foley's Kidney Cure corrects irregularities and has cured many severe cases after other treatment has failed. It builds up the worn out tissues and restores health and vigor. "I was troubled with kidney complaint for about two years," writes A. H. Davis of Mt. Sterling, Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Sold by J. W. McCollum & Co.

NEWS TERSELY TOLD.

The First National Bank of Barberton, O., has been ordered closed by the comptroller of currency on the ground that the bank is insolvent. The capital stock is $50,000.

A report from Washington, Iowa, that the United Presbyterian general assembly had selected Des Moines as the 1906 meeting place is an error. No action has been taken.

The Cunard line steamer Caronia, which arrived at Queenstown this morning from New York did not sight any of the yachts which are racing for the cup offered by Emperor William.

There was frost in Germany Tuesday and Wednesday nights, the thermometer registering 6 degrees below freezing. The cold weather wrought much damage to fruits and vines especially in the Moselle wine district.

Andrew Outterson, aged 80 years, a pioneer paper manufacturer, is dead at Watertown, N. Y. He helped his father erect the first paper making machine built in America and ran off the first sheet of bank note paper ever made on a machine.

Captain B. F. Reynolds, chief engineer of the Omaha waterworks, is dead; aged 81 years. Captain Reynolds was chief engineer of the steamship Pioneer, which in 1866, went to the relief of the John Franklin Arctic expedition and recovered the bodies of Franklin and six companions.

Herbine

Will overcome indigestion and dyspepsia; regulate the bowels and cure liver and kidney complaints. It is the best blood enricher and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise. R. N. Andrews, editor and manager Cocoa and Rockledge News, Cocoa, Fla., writes: "I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. Sold by W. M. Johnson.

Murdered by Robber.

Birmingham, Ala., May 27.—The dead body of Isaac Walters, secretary of the Mississippi Cannel Coal company, was found this morning in the front of his home at Woodlawn, a suburb. He had been shot in the head. Near by lay two revolvers, one which was identified as that of the murdered man. Walters' pistol had one chamber empty indicating that he had put up a fight before he wos killed. Walters had been robbed of his watch and money, and the murderer in his haste left his own revolver behind. Walters went home last night from the city at midnight and was never afterward seen alive. A neighbor stumbled over the body in the street about daylight this morning. There is no clew to the murderer.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in hot water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by all druggists.

Surprised the Undertaker.

Evansville, Ind., May 27.—Michael Hertzel, an aged German, was taken suddenly ill and apparently was dead for an hour. The coroner and an undertaker were called and Hertzel's sons began preparing for the funeral. As the undertaker bent over the supposed corpse the old man suddenly came to life and asked for a glass of beer and a bowl of soup. He is now fully convalescent.

Ex-Cashier Potter at Davisboro.

Sandersville, Ga., May 27.—Marcus B. Potter, who is charged with embezzling upward of $20,000 of the funds of the Davisboro bank, was released today on a $15,000 bond, signed by his relatives, after having been under surveillance at the Sandersville hotel since Tuesday. Potter left immediately for Davisboro in company with his father-in-law.

Had to Ward Off Old Age.

The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these tablets to be just what you need. For sale by all druggists.

Reported that Hay Will Retire.

Washington, May 27.—The report is revived, and on excellent authority, that Secretary Hay will remain at the head of the state department but a few weeks after his return to Washington in June. It is said the president has been aware of this for some time, and is seeking a man to take the state department portfolio, as well as that of the navy department. No suggestion is made as to who is likely to succeed Secretary Hay.

Doctor Sleeping to Death.

Pittsburg, May 27.—Some of the best medical talent of New York has been called to Pittsburg to give attention to Dr. Erwin Fischer, who has been asleep practically for five weeks, and is sleeping to death. There are no indications of paralysis, for he could feel, move and speak. In his few awakenings his mind was clear. In one of these brief lucid spells he said he believed he had contracted cerebro-spinal meningitis from a patient.

To Extradite Alabama Sheriff.

Montgomery, Ala., May 27.—The United States court will open June 5 and several peonage cases will come up. One against former Sheriff S. D. May, of Crenshaw, is set for the opening day. May has fled to Mexico and his extradition will be asked.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. I. Gray of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and lagrippe. At drug stores, price 50c and $1.00; guaranteed. Trial bottle free.

The body of Lee Fennell was found in the St. Johns river, ten miles below Palatka, Thursday. It is surmised that he jumped overboard.

The Lee county schools have just closed the most successful year in their history. The county pays good salaries, hence they have good schools.

E. J. Dozier, late assistant agent of the Seaboard Air Line Railway at Cedar Key, will leave shortly for Portsmouth, Va., where he will take a position in the general offices of the railway.

The Legislature has given Tampa an opportunity to expand and it is a great relief, as they had just got so big that their limits hang over the edges like the adipose of a 17 neck and a number 16 collar.

Satisfactory progress is being made on the installation of Palatka's sewerage system. It will not be long before the sanitary conveniences of that city will be the peer of those of any town in the State.

J. O Elvington, who pleaded guilty to the charge of peonage in Levy county, was sentenced by Judge Swayne at Tallahassee to pay a fine of $1,000, half to be remitted if paid at the present term of court.

It is true, says The Lake Butler Star, that some of our planters are discouraged at the Irish potato prospect, and a great many will not plant next year. But others will take a more hopeful view of the situation. know that the fault has not been in the planter not reaching an early market and will give them another trial next year.

The Banner of Liberty, Jasper, says: "W. M. Pennington has our thanks for two large turnips weighing five and three-quarter pounds each. They are fine flavored and we made 'pot liquor' enough to run us for a week A few more such turnips will bridge us over until hog killing time and then we'll be able to hold on the remaindr of the year."

The Gainesville Daily Sun of April 8th, 1905, arrived here in the mails on last Sunday, 21st instant, having taken forty-two days to make the trip from Gainesville to Punta Gorda. This is the worst yet.—Punta Gorda Herald. [We are sorry, but there is such a popular demand for The Sun that it is read by even the railway mail clerks, which often makes it late in reaching its destination].

"In unity is strength." The people of Lake City can never hope for progress until all petty bickerings cease and we pull together as one man for the general good. TWO KILLED; SIX INJURED.

Fatal Collision Occurs Near Augusta Ga.—Trolley Car Hits Coal Car.

Augusta, Ga., May 27.—Two were killed, one fatally injured, two probably fatally, and three slightly injured in a collision between a passenger trolley and a Louisville and Nashville coal car on the Augusta-Aiken railway in a stretch of woods some miles from Augusta on the south side of the river.

Felix Boddie, employe of the railway, who was riding with the motorman, was instantly killed.

A. D. Hill, conductor, skull fractured, he will die.

C. W. Cheatham, McCormack, S. C., head and chest mashed, will die.

A. W. Roberts, head cut, arm and leg broken, may die.

S. W. Long, Troy, S. C., head injured, badly bruised.

Claude Atkinson, injuries not serious.

A. E. Kearns, Knoxville, Tenn., head and leg bruised, not serious.

The accident occurred at the foot of a steep grade several miles from Augusta near Clearwater, S. C. The coal car, which was being conveyed to the power house, broke away from the motor car at the top of a hill and swept downward for several hundred yards, acquiring such momentum that when it collided with the passenger car returning to Augusta, it ground the lighter car almost into kindling wod.

Warning.

You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise act as irritating poisons and break down the delicate organs of the body and cause serious trouble. If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. Sold by J. W. McCollum & Co.

Mad Cat Kills Baby.

Evansville, Ind., May 27.—While the infant child of Preston McIlmaine was sleeping in its crib a large house cat leaped upon its breast and badly lacerated its face. Several large holes were torn in the cheeks of the child, and it lived but a short time. It is supposed that the cat had hydrophobia.

Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At all drug stores, 25c.

The Banner of Liberty, Jasper, says: "W. M. Pennington has our thanks for two large turnips weighing five and three-quarter pounds each. They are fine flavored and we made 'pot liquor' enough to run us for a week. A few more such turnips will bridge us over until hog killing time and then we'll be able to hold on the remaindr of the year."

The Gainesville Daily Sun of April 8th, 1905, arrived here in the mails on last Sunday, 21st instant, having taken forty-two days to make the trip from Gainesville to Punta Gorda. This is the worst yet.—Punta Gorda Herald. [We are sorry, but there is such a popular demand for The Sun that it is read by even the railway mail clerks, which often makes it late in reaching its destination].

"In unity is strength." The people of Lake City can never hope for progress until all petty bickerings cease and we pull together as one man for the general good. The Index has consistently preached the doctrine of good fellowship and harmony, and shall continue so to do, regardless of who may fill the little offices in our midst.—Lake City index [This will apply to every community, and we are pleased to state that Gainesville is united].

TWO KILLED; SIX INJURED.

Fatal Collision Occurs Near Augusta Ga.—Trolley Car Hits Coal Car.

Augusta, Ga., May 27.—Two were killed, one fatally injured, two probably fatally, and three slightly injured in a collision between a passenger trolley and a Louisville and Nashville coal car on the Augusta-Aiken railway in a stretch of woods some miles from Augusta on the south side of the river.

Felix Boddie, employe of the railway, who was riding with the motorman, was instantly killed.

A. D. Hill, conductor, skull fractured, he will die.

C. W. Cheatham, McCormack, S. C., head and chest mashed, will die.

A. W. Roberts, head cut, arm and leg broken, may die.

S. W. Long, Troy, S. C., head injured, badly bruised.

Claude Atkinson, injuries not serious.

A. E. Kearns, Knoxville, Tenn., head and leg bruised, not serious.

The accident occurred at the foot of a steep grade several miles from Augusta near Clearwater, S. C. The coal car, which was being conveyed to the power house, broke away from the motor car at the top of a hill and swept downward for several hundred yards, acquiring such momentum that when it collided with the passenger car returning to Augusta, it ground the lighter car almost into kindling wod.

Warning.

You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise act as irritating poisons and break down the delicate organs of the body and cause serious trouble. If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. Sold by J. W. McCollum & Co.

Mad Cat Kills Baby.

Evansville, Ind., May 27.—While the infant child of Preston McIlmaine was sleeping in its crib a large house cat leaped upon its breast and badly lacerated its face. Several large holes were torn in the cheeks of the child, and it lived but a short time. It is supposed that the cat had hydrophobia.

Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At all drug stores, 25c.
